

I am writing to express my concern about an LPFM broadcaster displacing my local Utica/Rome K-Love station 100.7. This station is the only option for christian based music in the area. It is not viable for a local station to operate in this small market therefore a FM translator is our only avenue. The christian community serves the area central NY area in many ways and is encouraged by this music genre. It is in the areas best interest to keep K-Love operating and the christian community assisting the needs of people.
